EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: On page 4 of the claims submitted on 10/28/04 remove the "1" to the left on the first line of claim 17.

(end of examiner's amendment)

Reasons for Allowance

2. Claims 1-5, 7-22, and 24-36 are allowed.

It is noted that the closest prior art of record, Lee et al. (U.S. Patent 5,937,000) discloses that the primary data signal is evaluated to determine the spectral shaping of the carrier portion of the spread spectrum signal, but Lee does not teach the implementation of a predetermined modulation carrier frequency such that the spread spectrum signal is within a frequency bandwidth corresponding to the speech. Thus, independent claims 1, 18, 35, and 36 are allowable over the prior art of record because the cited prior art alone or in combination, does not fairly suggest or disclose the claimed combination of features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2654

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
